Service Information

Introduction of Tandberg Service Information

From January 1982 this Service Information will be used for all information regarding Tandberg Hi-Fi related products, relevant for technical- and service personell.

Since 1979 technical information has been given by the "Product Bulletin". This bulletin will continue and give general technical and other product related information of importance for sales and marketing personell.

The Service Information and Product Bulletin are edited and released by the Hi-Fi product managers.
